

Access Requests

Only Sponsors can request/approve for a user to be assigned to a position. This has to be done in writing (e.g email), from your NHS shared email address, access cannot be assigned from a telephone request and no one can authorise their own access.

Please use the template below when emailing to request access:

- **Subject:** Pharmacy name & branch code.
- **Short Description of the issue:** If this is to add access to the pharmacy, please include the name and UUID number of the person who needs access (number found on the front of their smartcard).
- **Sponsor's name.**
- **Sponsor's Smartcard UUID:** (located on the front of the card).
- **Pharmacy Address & Telephone No.**

Sponsors

We require the Pharmacy branch code, smartcard UUID number and GPHC Registration Number when applying for Sponsor Access, if a Pharmacist.

However, this is not only limited to pharmacists, anyone can become a sponsor (in this instance the name and smartcard UUID would need to be emailed to us from your NHS shared email address for approval).

With pharmacy groups - Boots/Lloyds/Tesco etc. - an email from Head Office should be sent together with the sponsor information confirming the sponsor access to be assigned.

Contact Us

If you:

PHARMACY

RA Smartcard Information

What We Do

HBL ICT support all RA smartcard services for Pharmacies across Hertfordshire, Bedfordshire, Luton & Milton Keynes.

We run Smartcard clinics from separate locations:

Charter House, Parkway, Welwyn Garden City, Hertfordshire, AL8 6JL

Clinic times: Monday - Friday, 09:30 - 15:30

By appointment only: 09:30 – 15:30 (30-min slots)

Shipley Court, Marsh End Road, Newport Pagnell, Buckinghamshire, MK16 8EA

Clinic times: Wednesdays & Fridays, 09:00 - 16:00

Drop in sessions: 09:00 - 12:00 & 13:00 - 16:00

At these clinics, we can renew/replace and unlock smartcards, and carry out new registrations.

Security and Confidentiality

You have a duty to keep patient information secure and confidential at all times.

Your Smartcard provides you with the appropriate level of access to the healthcare information that you need in order to carry out your role. It is a token of your identity and any access to patient data using the card will be auditable and tracked back to you.

You should therefore treat your Smartcard as you would a credit or debit card.

- Never share your passcode always keep it safe, secure and use it appropriately and never allow anyone else to use your smartcard.
- Never leave your smartcard unattended or in the Smartcard reader when you are not actively using it.
- If your Smartcard is lost, damaged or stolen, contact your local Registration Authority (RA) immediately. They will cancel your card and replace it as soon as possible.

All transactions made when your Smartcard is in use are recorded for audit purposes.

Access is audited, and you will be held accountable for any inappropriate transactions made using your Smartcard, whether you were responsible for them or not.

Smartcard - Stored Information

Your photo, name and unique user identity number are visible on your Smartcard. In addition, the electronic chip within the card contains encrypted information that permits you to access some IT systems and services.

Your Smartcard does not contain any of your personal data.

How to use your smartcard

1. Place your Smartcard in the reader.

All PCs and laptops connected to the NHS Spine have a Smartcard reader.

2. Enter your logon passcode.

You selected and entered a confidential 4-8 character passcode when registering for your Smartcard. Enter this when prompted to do so.

3. Access the services that you need.

The system will check information from your card and your passcode. If they are correct, you will be given access to NHS Spine systems and services.

Select the relevant role; you might have more than one. The level of access that you are given is determined by your role profile.
